

READY TO GO 'LIVE'? WE'RE HIRING FOR OUR TEAM: CREW CHIEF INTERNATIONAL PROJECTS

You're in charge of the load in and load out of large scale projects, locally and abroad. You head a team of stage builders, travelling the world constructing 'the big ones': festivals, concerts, sports events and more. The pace is high, the expectations of clients even higher, but it comes with the satisfaction of a fantastic show.

What you'll do:

- Practical project preparations (advancing job sites, build drawing checks, build sequence and truck packs, composition of crew).
- Liaising with clients on practical arrangements (machinery, hotels, catering, local crew) and delivery of services; maintaining continuous feedback about progress and changes with project and planning management.
- Project logistics and co-ordination on site, supervising load-in and load-out, debriefing.
- Managing, supervising and supporting your team. You are the first point of contact for any emergency.
- You accompany safety inspection and ensure a safe working environment, creating awareness for safety procedures.
- Final check and delivery of work according to the specifications of the client.

Who you are:

- A razor-sharp technical insight, developed through education and/or experience.
- Reading a plan is effortless and you're known as a real problem-solver.
- Your track record shows proven leadership skills: a pure-bred team player with a positive mindset, client-friendly and focused on getting the job done.
- A strong and clear communicator, able to steer the team through harsh conditions keeping a cool head all the way.
- 9 to 5 is not your mindset. High-demanding periods away from home are alternated with calmer periods. You far prefer months 'on the road' over 'home sweet home' every night.
- You're a chameleon, adjusting with ease to all kinds of cultures, languages and countries. Life on the road can be tough so make no mistake: it's not always fun and touring is not a holiday!
- Stress resistant. Our crews' dedication is legendary, and your perseverance is what makes Stageco exceptional. You have the drive to play in the premier league of the event industry.
- You are English speaking. Knowledge of Dutch or French is handy but not essential.
- Available from January/February 2023 onwards.
- Belgium-based or willing to relocate to Belgium for long periods.
- Drivers licence (B / car)
- Clean criminal record, allowing you to travel without boundaries.

How will it work?

It all starts with training.

- First we lay the theoretical foundation: you follow technical meetings, job preparation and team discussions in Tildonk, as well as site-visits and client meetings leading up to a project.
- Then comes practice: you join an existing team from start to finish: eyes and ears open, learning from the best.
- After that, you start swimming by yourself... but always with the support of our whole team.

What do we offer?

At Stageco, you get a chance to be part of a team of like-minded go-getters who are world-leaders and trend-setters in the event industry.

We offer the unique mix of an international working environment and the vibe of an innovative, small-scale business.

Rock'n'Roll with a hands-on attitude is in our DNA and we thrive in an informal environment.

What else? A competitive salary package, attractive working conditions, a fantastic team and, of course, a party every once in a while.

sector.
